WEFTEC 2011

From October 17th to the 19th, Wilo USA displayed at the 84th Annual Water Environment Federation's Technical Exhibition and Conference (WEFTEC) in Los Angeles, CA. The Wilo USA Water Management sales and marketing team were ably assisted by our colleagues from Canada in exhibiting our FA sewage pumps, MTS grinder pumps, TWI water pumps, TR mixers and RZP mixer wall pumps. A major feature of the exhibition was the Wilo Maintenance Event portion of the Operations Challenge contest. The contest consists of replacing the mechanical seal in both a Wilo pump and mixer and our booth featured one of the competition sets for the teams to use for practice. Additionally, the exhibit featured the new Wilo SOLID impeller, first shown at IFAT, which combines high efficiency and great solids passage.

Upcoming Events:

NGWA	AHR
Booth #236	Booth #5177
Las Vegas, NV	Chicago, IL
Nov. 29 - Dec. 2	Jan. 23-25

TWU 3

The NGWA Annual Convention in Las Vegas this year will highlight the full release of the Wilo 3" Submersible in both Constant Pressure and Integrated pumping solutions! In multiple sizes up to 1.5 HP, the submersible is capable of up to 450 feet of head and flows of 28 GPM. The new 3HS will complement our 4HS Series of pumps through 3 HP. Wilo will have two areas on display at the NGWA, our standard booth (#236) and a most special 'rolling display' (located near the bookstore)!

We look forward to another great show and hope to see you there.

Update From Wilo Street Fleet

The vans are making their way around the United States. Check it out!

(above) The Wilo Street Fleet van visits APR Supply in Pennsylvania.

(above) The Wilo Street Fleet van at the Sleeper House in Colorado which has Wilo ECO Pumps in it.

Contact your Sales Representative to book a van in your area.
